The Bulldog is easygoing because that's the way you like it, easy to live with too. This is a motorcycle that cuts away from the herd and takes the long road home, just for the sheer pleasure of it. And you can take your Bulldog any which way – we've commissioned a special range of unique custom parts to add some personal style to a stylish motorcycle.

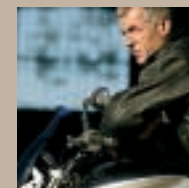

BT1100 Bulldog

***BT1100, a real
motorcycle
ridden by real riders***

THE BT1100 IS A FINE PIECE of metalwork – an extraordinary hunk of real machinery in a world where so much is fake and plastic. Its 1,063 cc motor stands out just the same – here's a big and laid-back V-twin that will have you loosening up on every ride, with a taut, easy-riding chassis that'll have you unwinding in the bends too.

Accessories

1. Flip-up windscreen – smoked

As well as featuring an attractive smoke tint the optional flip-up screen is also 90 mm taller than the standard screen and offers improved wind protection for enhanced rider comfort.

2. Luggage carrier

Designed to fit perfectly to the chassis, and fully equipped with convenient luggage hooks, this stylish satin chrome luggage carrier is ideal for transporting smaller loads up to 5 kg.

3. Top case

Equipped with a convenient carrying handle and lock, Yamaha's attractive 33 litre top case increases the Bulldog's carrying capacity, and is a must for riders who use their machine for commuting or touring.

4. Engine guard set

Manufactured from heavy duty tubing and featuring a high quality satin chrome finish, the optional engine guards look great and help protect the big V-twin engine.

Become part of a bigger world

THE BT1100 IS MORE THAN A MOTORCYCLE – IT'S FOUR DIFFERENT MOTORCYCLES, OF WHICH V.METAL AND V.SKIN CAN BE CREATED FROM A RANGE OF UNIQUE AND HIGH-QUALITY YAMAHA ACCESSORIES.

BT1100 Bulldog

A MELLOWED-OUT motorcycle with a real heart and a life-enhancing ride. A stock BT1100 is what real biking is all about – it gives more than it takes and does things its own way.

Mastino Napoletano

THE MASTINO was the original custom BT1100, created for show purposes only by avant-garde designers to accentuate the bike's image, reveal its eye-grabbing possibilities and inspire customisers.

V.Metal

HOW MUCH METAL do you want? The BT1100 V.Metal uses a range of handcrafted custom parts to pump up the big V-twin's attitude for a badder and meaner look.

V.Skin

LEATHER HAS ALWAYS been a big deal in biking, which is why the BT1100 V.Skin pays homage to the biker's favourite material with a whole range of wonderful leatherwork.

BT1100 V.Metal

***V.Metal,
the hard edge***

STRAIGHT OUT OF THE FOUNDRY, THE BT1100 V.METAL
USES SPECIAL PARTS PRODUCED BY SOME OF
EUROPE'S FINEST TUNING SHOPS. EVERY ITEM HAS
BEEN CREATED TO ADD TO THE BT1100's EDGE.

CHOOSE FROM these parts and many more: polished aluminium screen,
tank, headstock cover, front fender, short tail, meter shield, Superbike
